|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Octobre    | Novembre | Décembre | 1937                             | 1938  |
| chines; automatic steel band biscuit plant, including combination rotary moulding and cutting machine, automatic tunnel-type travelling-band biscuit oven with cooler, and automatic biscuit stacking machine with packing table; steam-tube heated draw-plate ovens of one or two decks; travelling tray ovens, single or double lap; travelling tunnel-type ovens, with plate, chain, rod or wire-mesh conveyor; synchronized oven feeders; and complete parts of the foregoing.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |            |          |          |                                  |       |
| achines et appareils pour boulangeries, savoir: nettoyeurs de sacs et ramasseurs de poussière combinés et à suction; compteurs de débit avec contrôle automatique ou à bras pour mesurer l'eau; découpeurs de pâte, d'un rendement de cinq pochettes de 100 morceaux à la minute jusqu'à un rendement de huit pochettes de 160 morceaux à la minute; diviseurs et arrondisseurs mécaniques combinés à huit pochettes pour petits pains, combinés avec un appareil suspendu pour éprouver les brioches à sec; machines réglables pour mouler les petits pains, d'un rendement de 100 pains à la minute; machines automatiques à la vapeur, modèle à plateaux, pour dernière épreuve; monte-charges à palettes; refroidisseurs de pain automatiques en forme de plateaux; machines automatiques pour graisser les plats; machines automatiques à sectionner et placer les gâteaux; machines automatiques pour envelopper le pain; machines automatiques pour trancher le pain; machines automatiques pour fabriquer des pâtisseries légères; machines rotatives à mouler les biscuits; appareils automatiques à bras d'acier pour confectionner les biscuits, y compris machines rotatives à combinaison pour sectionner et mouler, fours automatiques à bande roulante en forme de tunnel avec refroidisseur, et machines automatiques à empiler les biscuits, avec table d'emballage; fours à filière à un ou deux tabliers, chauffés par des tuyaux à vapeur; fours roulants à plateau, à recouvrement simple ou double; fours roulants en forme de tunnel avec plateau, chaîne, convoyeur à tige ou à treillis métallique; alimentateurs synchronisés de fours, et pièces complètes de ce qui précède. |            |          |          |                                  |       |
| ox-end machines designed for making rigid composite box-ends of wood—consisting of a centre with separate nailing edges attached, from scrap or waste mill stock—and complete parts thereof, not to include motive power.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |            |          |          |                                  |       |
| achines pour servir à la fabrication de bouts de boîtes rigides composés en bois—consistant en un centre avec rebords distincts à clouer, avec des déchets ou des pièces de rebut de moulin—et leurs pièces achevées, le moteur non compris.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |            |          |          |                                  |       |
| bal carbonizing machinery,—machinery and apparatus and complete parts thereof, including machinery and apparatus for carbonizing lignite coal, but not including motive power, for use exclusively in the manufacture of fuel briquettes.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |            |          |          |                                  |       |
| arbonisateurs de charbon—machines et appareils et leurs pièces complètes, y compris les machines et appareils pour carboniser le lignite, mais à l'exclusion de la force motrice, pour servir exclusivement à la fabrication des briquettes combustibles.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |            |          |          |                                  |       |
